

Call for Authors

Since April 2001, IEEE Press and John Wiley & Sons, Inc. have jointly developed and published a wide variety of books in the fields of electrical and computer engineering under the Wiley-IEEE Press imprint.

Wiley-IEEE Press is currently seeking new authors for books on electrical engineering topics. Book topics can include, but are not limited to: **biomedical engineering, computer and software engineering, circuits and systems, nanotechnology, communication technology, signal processing, microwave technology, antennas and propagation, electromagnetics, computational intelligence, power engineering, power electronics, optical communications, and systems engineering.**

Wiley-IEEE Press provides authors with:

- Competitive Royalties
- Rapid Production
- Exposure on IEEE Xplore® and Wiley.com
- World Wide Marketing
- Society Endorsement & Income
- Expert Technical Review
