

EUROEM 2012

European Conference and Exhibition on Electromagnetics

2-6 July 2012 - Toulouse, France

www.euroem.org

SECOND ANNOUNCEMENT

EUROEM 2012 will continue the EUROEM/AMEREM tradition of bringing together the:

- 18th High-Power Electromagnetics Conference (HPEM18)
- 11th Ultra-Wideband, Short-Pulse Electromagnetics Conference (UWB SP 11)
- 11th Unexploded Ordnance Detection and Range Remediation Conference (UXO 11)

We are pleased to invite you to join us for the EUROEM 2012 Symposium. It provides a forum within the international scientific and engineering

community in Electromagnetics. An attractive program of the highest standard, including speakers from many countries, will await you.

We look forward to seeing you in the beautiful city of Toulouse.

Conference Location

The conference will be organized in Toulouse, by Onera, the French Aerospace Lab.

Toulouse is the fourth largest city in France :

- N°1 in Europe of the aircraft and space, electronic, data-processing and microbiological industries.
- 2nd pole of research in France
- with more than 400 laboratories and 110.000 researchers
- 3rd university city of France : 110 000 students.
- an easy access – Toulouse – Blagnac international airport

At the heart of the Midi-Pyrénées Region, Toulouse has always occupied an important place in the South-West of France. This 2000-year-old history shows itself in an architecture of bricks and tiles that is typical of the cities, villages and farms of the Midi-Pyrénées Region. Reflections of the golden light of Toulouse have earned it the name of the "Ville Rose". This very special colouring confers an atmosphere on the city that is at once gentle and warm.

General Information

The language of the conference is English. There will be a technical Exhibition during the conference. More information will be available on our web site. The banquet will take place in the Hotel Dieu Saint-Jacques and cocktail at the Toulouse City Hall.
