The International High Speed Intelligent Communication (HSIC) founded by Chang Gung University, Taiwan, in 2009 is an important field of theory, design, and implementation of millimeter wave integrated circuits and systems, sensor network, optical communications and MIMO/OFDM systems. The HSIC2012, jointly organized by Southeast University, Nanjing and Chang Gung University, Taiwan, will be held in Nanjing on 17-18 May 2012. The theme of the HSIC2012 is "Technologies for Next Generation Wireless Communications" to promote more high speed chip designs and the development of intelligent circuits/systems techniques to enhance the smart system command and control capability and to display the highly intelligent communication performances. The HSIC2012 will offer a rich program of high quality with distinguished invited speakers from all over the world and provide a broad forum of exchanges for researchers and scholars. Guest speakers are invited to give talks.

The technical program includes the below but not limit to

- A. Microwave and Antenna**
- B. Baseband and Protocol**
- C. System (incl. optical, wireless)**

**Paper Submission:**

All submissions must be electronic in PDF format only and hard copies will not be accepted. All papers must be written in English and limited to four pages including text, references, and figures. The template is available in the website. Papers submitted will be peer reviewed, please upload to Website: <http://www.emfield.org/HSIC2012>

**Important Dates:**

Submission of paper before	<b>1 March 2012</b>
Notification of acceptance	<b>31 March 2012</b>
Registration deadline before	<b>15 April 2012</b>
Advance Program Delivery	<b>30 April 2012</b>

**Student Paper Contest** Student paper contest is limited to full time student who must be the first author of the paper, and the student is required to present their papers at the conference. The candidates are required to show their full time student identification cards on the registration desk. Each of the three final winners will be awarded the HSIC2012 Best Student Paper Prize with a certificate and 200USD. All the students are encouraged to participate the contest.
